## How to prepare the Busy Binder

**Print the activity and matching activity manipulative pages. They can be printed on regular printer paper or cardstock paper for extra durability.**

**After printing, laminate the activities, hole punch using a 3-hole puncher, and place them in a binder.**

**In addition, print, laminate, and cut the activity manipulatives. They can also be printed on regular printer paper or cardstock paper for extra durability.**

**Next add your matching velcro pieces to each activity and its matching activity manipulative.**

**You can place the manipulatives for each activity in a separate ziploc bag and then place the ziploc bags in the 3 ring binder pencil bag for safe keeping.**

**Creating your busy binder this way will allow your kiddos to have fun over and over again. The binder can then be passed down to siblings, friends or family members.**

**Quick Tip: You can also print and let your kiddos use scissors and glue for a one time use instead of laminating and placing in a binder. You can then reprint the activity if they want to enjoy it again!**
