Fall Tracing Lines

Trace the line from the tree to the leaf.

Fall Tracing

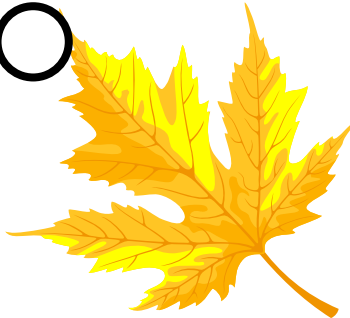

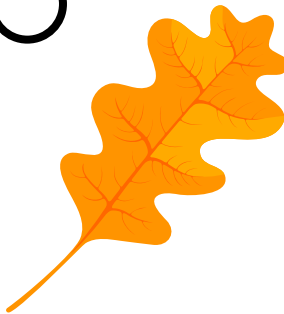

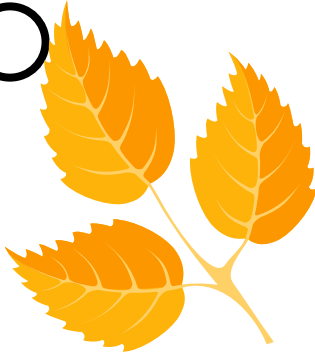

Trace the dotted line then color the leaf.

A large, stylized leaf outline with a thick black border. Inside the leaf, there are several dashed lines forming a network of interconnected paths, resembling a maze or a complex drawing exercise for children. The paths are composed of straight dashed segments of varying lengths, creating a web-like structure within the leaf's shape. The leaf itself is oriented vertically, with its tip pointing towards the top right. The overall design is simple and clean, suitable for a children's activity book.

Fall Scavenger Hunt

Lets hunt these different leaves outside then
check the circle if you find them.
