How to Use Your Canva Templates

Thanks so much for purchasing this PLR Product! 

Below are the instructions on how to access and use your templates today!

If you do not already have a Canva account you will need to create one first at Canva.com.

(Side Note: The pro version of Canva is only $12.99 a month currently and you get soooo much for that price. They are constantly adding new features and also tons of stock photos and elements that are free with the pro account.)

Steps to Use Your Templates:

#1. Open the template link provided on this pdf below.

#2. Save the original copy of these templates by making a copy of them to edit each time you want to create something new.

#3. Start creating your own style by editing the copy you just made.

#4. As long as you keep an unedited version of the original templates stored in Canva you can come back to it if you end up with a design you don't like to start over again! :)

#5. Have fun!!
